

STONY CREEK STREETSCAPE AND GATEWAY ENHANCEMENTS

*Stony Creek, New York
2017-Present*

Funded by a Local Waterfront Revitalization Program (LWRP) grant managed by the New York State Department of State and working with Warren County and the Town of Stony Creek, CLA SITE has developed streetscape and gateway enhancements at the intersection of Roaring Branch Road and Harrisburg Road (Route 22) in the Town of Stony Creek.

The plan will create a recreational area and welcoming gateway into the Town, while also improving pedestrian circulation and parking. Improvements will include new sidewalks, a plaza area, picnic and seating areas, parallel parking, a pedestrian crosswalk, drainage improvements and planting areas. Working closely with the Town, Warren County and the Department of State were critical components of this project.

CLA SITE was also be responsible for full Town and State agency approvals coordination, construction documentation, specifications and will also provide construction administration services and oversight.
