

**MALTA AMBULANCE
EXPANSION**

Malta, New York

CLA SITE provided site planning and design for the development of a \$1.4 million ambulance facility expansion. Program elements included site design for building location, parking lot configuration, separate ingress/egress, pavilion area, memorial area and utility upgrades.

Work tasks included preparation of detailed site plans, a stormwater management report and planning and zoning board presentations and approvals. Key considerations of the project included traffic flow and barrier free accessibility.
