

*BULWAGGA BAY CAMPGROUND
SHORELINE STABILIZATION*

*Moriah, New York
2008-2011*

CLA SITE and Bourne Consulting Engineering worked closely with the Town of Moriah to provide a Shoreline Assessment & Feasibility Study, covering 2,000 feet of eroding shoreline. Design solutions included cost effective shoreline revetments and beach replenishment. Work included project meetings, site visits, preliminary construction drawings and cost estimates.

CLA SITE was also responsible for obtaining the necessary permits required by the Adirondack Park Agency, Army Corps of Engineers and the New York State Department of Environmental Conservation.
