

*PRATTSVILLE LONG-TERM  
COMMUNITY RECOVERY PLAN*

*Prattsville, New York  
2014*

CLA SITE provided assistance with facilitation, planning and design services to develop a Long-Term Community Recovery Plan for the Town of Prattsville, New York.

Following the devastation caused by hurricane Irene, CLA SITE provided team leadership for design charrettes, and task force meetings which focused on economic and community redevelopment strategies including parks and recreation and improving alternative transportation options with a host of multi-use trails and paths.

The Prattsville Long Term Community Recovery Plan received the 2014 Planning Excellence Award from the American Planning Association.
